

Seek Studios

finding the breathtaking moments in your story

FAMILY PHOTOGRAPHY

When you work with Seek Studios, you can expect to find expertise (15+ years), quality, attention to detail, and kindness. We love getting to know our clients and their story, and we know that those traits are vital in good story telling. We felt the best way to serve our clients and truly tell their story is to be a full-service boutique studio. What does that mean, you may ask?

We strive to meet your needs and capture your story from start to finish. This means you won't walk away from us with just a disc of images (or thumb drive) that sits in your drawer. We want to take the added work of creating memory keepsakes like albums, prints, wall art, and family gifts off your plate and help you create works of art that stand the test of time. We want you to walk away with your completed story in hand, the way you want, within your budget.

Everyday Narratives: Cost- \$100 an hour-

- An Everyday Narrative, what exactly is that, you may ask? Well, it is a non-typical photo session of your family. You choose a special activity, event, or just everyday activity, all specific to your family, and we come and capture the full story in a photojournalistic style. Think of it as having your own personal historian there to capture the everyday and make it *extraordinary*. It is also possible that maybe you want to capture your everyday with a person in a unique stage of their life. Do you want to remember these moments with them in this stage years from now? With this session, we will be cementing these memories into images that last a lifetime, not just images of your family posing uncomfortably for the camera but moments that reveal the personality and the love that exists in and around your whole family. Right now, some of these times may seem trivial, but in 10, 20, or 30 years, they will be priceless and could help spark loving, lasting, healing memories. They won't just be images saved on your phone or cloud for no one to ever see. They will be priceless heirlooms to pass on to future generations.

We begin with a consultation to determine the vision for your Everyday Narrative. The time of your session will vary based on your needs, the event and what kind of story we will be telling. About 2 weeks after your session, we schedule a time for an ordering session where you will have the opportunity to order prints, wall portraits, books, or whatever will help tell your complete story. We usually show 50-75 of the best edited images for you to choose from. You will also have the opportunity to purchase digital files, if you wish. My average family can expect to spend between \$500-\$2000 on prints and products depending on what pieces you choose. Contact us to set up your free consultation today!
