

# Seek Studios

finding the breathtaking moments in your story

## BIRTH PHOTOGRAPHY

*When you work with Seek Studios, you can expect to find expertise (15+ years), quality, attention to detail, and kindness. We love getting to know our clients and their story, and we know that those traits are vital in good story telling. We felt the best way to serve our clients and truly tell their story is to be a full-service boutique studio. What does that mean, you may ask?*

*We strive to meet your needs and capture your story from start to finish. This means you won't walk away from us with just a disc of images (or thumb drive) that sits in your drawer. We want to take the added work of creating memory keepsakes like albums, prints, wall art, and family gifts off your plate and help you create works of art that stand the test of time. We want you to walk away with your completed story in hand, the way you want, within your budget.*

### Birth Narratives

#### Simply Birth Chapter: Cost- \$950-

- This cost includes on-call time (14 days before and after the due date), coverage from about 5-6 cm until about 2-3 hours after birth, when all extended family members present have had a chance to meet baby, and to capture all those firsts of baby and family. We will be there to capture those amazing moments that tell the whole story, not just pictures of baby after birth. You will also receive digital copies of the best proofs. This can range from 100-200 images depending on the length of the birth. Along with the proofs, you will receive a video slideshow to share with your friends and family, and 2 first-look photos within 24 hours after the birth, that we will share with you on social media.

If you know more than 2 weeks before your due date that you will be having a scheduled C-section, or scheduled induction, the price drops to \$500. We also require that you get approval from your doctor or midwife.

First, we will start with an in-person consultation, where we will get to know each other. We will discuss your birth plan and the alternative plans should anything change from your initial birth plan. We will also talk about notification procedures and take care of paperwork.

We encourage your partner to be present with us at this consultation. This allows you both the opportunity to ask questions and be comfortable with someone else present in the room during birth. Contact us to set up a free consultation today!

### **Birth and Baby Chapter: Cost- \$1525-**

- This cost includes everything within the ***Simply Birth Chapter***, in addition to this, you choose **4 sessions** that help capture the entire story of this precious life coming into the world. Choose between: *Maternity, First 48, Newborn, 3mo., 4mo., 6mo., 8mo., 12mo., or 18mo.*

Most of the newborn sessions will be done in-home for maximum comfort for you and your family. However, all the other sessions can be done in-home, in-studio or on location. If you choose this chapter, we will discuss the details of your first session at the Birth consultation. We will also discuss timing, style, your needs and what we can offer to maximize use of your images.

About 2-3 weeks after each session we schedule a time for an ordering session where you will have the opportunity to order prints, wall portraits, books, or whatever will help tell your complete story. You will see a video slideshow of the best images for you to keep and share with friends and family. We usually show 30-50 of the best edited images for you to choose from. You will also have the opportunity to purchase digital files, if you wish. My average family can expect to spend between \$500-\$2000 on prints and products depending on what pieces you choose.

In addition, you also receive 10% off all prints and products for all sessions and you will have a **\$300 print credit** towards an album at the end of the year. All of this individually would cost **\$1650**. So, with this package you are automatically saving **\$125**.

If you choose to purchase sessions individually, the cost is **\$100** for each session (except First 48, see below) in addition to the cost of the birth. We will still schedule an ordering session within 2 weeks after your photo session. Contact us to set up your free consultation today!

### **First 48 Chapter: Cost: \$350-**

- What is first 48?? Well, maybe you don't want someone present to photograph the birth of your child, but you do want to capture some of those special firsts with family and friends within the first 24 to 48 hours. Then this chapter might be best for you. These aren't posed portraits of the baby that the hospital takes. This is a session is a lifestyle session of baby and the family interaction with baby. Some of these might be snuggling with mom or dad, the first-time nursing, seeing the siblings for the first time, meeting extended family and all those unforgettable shots of baby that you will cherish forever. It is different from a Newborn session, which mainly focuses just on baby. This chapter can also be chosen as one of the 4 sessions in *Birth and Baby Chapter*.

First, we will start with an in-person consultation, where we will get to know each other, we will discuss your birth plan and the alternative plans should anything change from your initial birth

About 2 weeks after your session, we schedule a time for an ordering session where you will have the opportunity to order prints, wall portraits, books, or whatever will help tell your complete story. You will see a video slideshow of the best images for you to keep and share with friends and family. We usually show 30-50 of the best edited images for you to choose from.
